# LEXI VIEWER

Revolutionize live events with a cutting-edge captioning solution.

LEXI Viewer (SKU: AV610) provides high-resolution output, easy-to-read one-click captions, while keeping your screen clear for other event visuals or presentations.

BENEFITS

PERFECT FOR:

Live in-person events like town halls, conferences, stadium displays, & concert venues

CLICK-TO-CAPTION:

Transform any video stream into an inclusive experience by providing live captions at the click of a button.

SEAMLESS INTEGRATION:

Pair with LEXI automatic captions for an all-in-one, seamlessly integrated event display solution.

ENHANCE ENGAGEMENT:

Broadcast video streams with live captions in 4 separate display modes, making it easier to follow along, understand key messages, and stay connected throughout the entire experience.

CUSTOMIZABLE DISPLAY:

Personalize the viewing experience by adjusting font size, colour, and positioning of the captions, ensuring optimal readability and comfort for everyone.

DISPLAY MODES

Full Screen Mode

Ensure captions are fully accessible & legible to a large audience by decoding it on a full screen. Choose between different line spacing & text size options.

Background Image Mode

Overlay 4 rows of captions over a custom background image. Caption appearance is completely configurable: including font, text size, text positioning, and color.

Scaler Mode

Keep presentation content fully visible by scaling input video down by 20% & displaying 2 rows of captions above or below the video. Text alignment, font, & color may be customized.

Caption Decoder Mode

Display captions over input video to mimic the behavior of a consumer caption decoder, while customizing font & text color.
